NEW HUSBAND MURDER LEAD

Police Seek Man Introduced as Mrs Gedeon's "Second" Mate in New York

SUSPECT TURNED FREE

Detectives Renew Search for Clues in Baffling Triple Murder

By The Associated Press

NEW YORK April 3—Baffled police sought another phantom—a second husband of Mrs Mary Gedeon—today in the frantic search for clues in the triple murder Easter morning on Beekman hill.

Deprived of their chief suspect by release in $1000 bail on a gun charge of Joseph Gedeon slight upholsterer detectives turned in a new direction looking for the killer.

"We have received reports several of which have been corroborated," said Detective Lieut Walter Harding, "that Mrs Gedeon within the last two years introduced a man to several of her friends as her new husband.

"We are now seeking this man not that we have any proof that he actually married Mrs Gedeon but if they were in such a relationship we want to question him."

Parents Estranged

Gedeon who found the bodies of his strangled wife and art model daughter 20-year-old Ronnie Gedeon when he visited their flat in hopes of a reconciliation Easter morning had been estranged from his wife for over two years and has been living in the back room of his upholsterer's shop.

Gedeon after almost two days of incessant questioning was released from police custody last night on the comparatively minor charge of possessing a gun in violation of the Sullivan anti-firearms law.

Toxicologists examined the left hand man's grey glove found in the apartment where the women were strangled to death and the roomer Frank Byrnes waiter in a fashionable club stabbed through the brain with a needle-like instrument.

Police Search Sewers

Detectives ripped open the house plumbing and searched sewers in the street for the instrument that killed Byrnes. At the laboratories investigators peered through microscopes at a brown coat taken from Gedeon's apartment and attempted to classify bits of hair, shreds of skin from under the woman's fingernails, a [illegible] beads and a bit of cloth that might have been wrapped around the handle of the murder weapon.

No results had been achieved in the hunt for the women's friends of Gedeon among them [illegible] and Dick [illegible]

NEW CONTRACT AND RAISE ENDS COAL DISPUTE

$85 000,000 a Year Involved in Wage Increases Granted After Brief Shutdown

300 000 MEN AFFECTED

McGrady and Perkins Laud Peaceful Negotiations, Lewis Says Both Yielded

By The Associated Press

NEW YORK April 3—The [illegible] coal industry after a [illegible] day shutdown was free of all [illegible] today with a [illegible] contract [illegible] granting miners [illegible] increases [illegible] $85 000,000 annually.

The short shutdown in the bituminous [illegible] of a [illegible] was [illegible] by [illegible] agreement between the [illegible] operators and the United Mine Workers of America providing increases [illegible] for more than 300,000 employes.

The operators spokesmen estimated the boost probably would [illegible] an increase in the price of coal at the mine of 25 cents a ton. The union said it would add only 11 cents to the cost of mining a ton.

Deny Miners Struck

No strike occurred said the union. The men just refused to work without a contract. The old agreement expired at midnight Wednesday.

Edward F McGrady assistant secretary of labor called the culmination of the weeks long negotiations industrial statesmanship. Secretary Perkins in Washington said it proved settlements could be reached without recourse to costly strikes and lockouts.

John L Lewis union president said both sides yielded on certain points and there was a spirit of mutual compromise and an effort to compose the differences in the industry without a strike.

In behalf of the operators Charles O'Neill of New York said he joined Lewis in expressing pleasure at the outcome of the negotiations. The industry ironed out its problems over a conference board in six weeks negotiating.

Asked 15 Per Cent Raise

Originally the miners asked a 15 per cent pay increase, a cut in the work week from 35 to 30 hours two weeks vacation with pay and a guarantee of 200 days of work a year.

This is what they got: A 50 cents a day increase for inside labor paid by the day, 70 cents increase for loading machine operators, 10 per cent for yardage and deadwork (taking out slate and rock, etc) and nine cents a ton for those paid by the ton for coal mined by machine.

Under the new agreement the basic daily pay in the north will be $6 as against the former $5 50 and the south $5 60.

Those paid by the day with a few exceptions also are to get time and a half for overtime.

LAND WORTH MILLIONS FACES TITLE DANGERS

Bill Approved by Senate Would Enable Auditor To Sue Tenants for Rent on State's Long Lease Property

By The Associated Press

COLUMBUS O April 3—The state which is a landlord to thousands of persons could be put in position to embarrass some of its tenants by a proposal approved by the senate and awaiting action in the house today.

It would enable the state auditor to sue tenants to collect rent in arrears. The bill introduced by Sen George M Morris, Democrat of Franklin was reconsidered and passed by the senate after once having been defeated.

Sen Verner E Metcalf of Marietta Republican floor leader who led the opposition said that under the bill the state auditor conceivably could take from its holders property representing nearly a third of the [illegible]

Group Here Takes Stand Against Any New Taxes

Business, Industrial and Professional Men Act To Record Opposition to Additional Levies

A rigid stand against any new state taxes was taken last night at a meeting at the Chamber of Commerce of a group of 70 Marion county citizens representing business industrial and professional organizations under the direction of F F [illegible] chairman [illegible] group known as Marion County Committee of the Inter-Organization [illegible] voted unanimously to [illegible] the county representatives in the Ohio assembly to oppose all the $10 000 000 in new appropriations now pending.

Similar meetings have been held or will be held in every county in the state before next Friday. W D Brown secretary of the Chamber of Commerce [illegible] county committee said Morrow county has already acted and has [illegible] statements from its representative and senator that they will oppose new tax bills. [illegible] will meet at Marysville next Friday night at 7:45 at the [illegible] with [illegible] Sharp as chairman. Mr Brown is [illegible] of both these counties.

Mr Brown who returned Wednesday from a meeting of county representatives of the Inter-Organization Conference at Columbus reported last night on the findings of the tax experts of the state group. This report was unanimously approved.

State Receipts Listed

It listed the estimated 1937 receipts of the state at $11[illegible] 000 and the estimated expenditures at $125 710 000. Mr Brown pointed out the estimates were much [illegible] in 1936 and when [illegible] it showed the actual state figures this year running true to form.

The conclusion reached by the fact finding committee of the state group is that with proper allocation of funds already accruing there is no need for any new taxes.

He emphasized the seriousness [illegible]

Findings of Committee

The state committee's findings [illegible]:

1. That the state can carry on as in 1936 without new taxes.
2. That a $5 [illegible] for a state building [illegible]
3. That Gov Davey's pre-election [illegible] of $40 per person per month to old age pensions [illegible] with the law that if [illegible] lawfully then the [illegible]
4. That the sales tax [illegible] be increased from 10 to 20 per cent by charging [illegible]
5. That some part of the $16 000 000 delinquent property taxes in Ohio can be collected to ease the burden.
6. That there is [illegible] relief chiseling [illegible] relief allocations should be reduced.
7. That reallocation of present funds will enable the state to operate on its present income.

In carrying out [illegible] program the Marion county group named J H Walters president of the Marion Steam Shovel Co, Mr Brown and Earl F Thomas former county representative as a committee to contact the county legislators. Mr Brown will also seek the support of various business groups and leading citizens.

Yoder Taxpayers Friend

Answering questions from the floor in regard to the Columbus meeting Mr Brown said the state fully intends to continue the $10 old age pension increase that at present no new major taxes have been created that Governor Davey is reported as [illegible] on his pre-election stand against new taxes. He said [illegible] Governor Paul Yoder now recognized as a watchdog of the state treasury is the taxpayers' best friend.

Mr Brown also said Samuel A[illegible] Marion county representative favors a flat income tax on all incomes over $1000 with no exceptions.

Informal speakers from the floor were Alvin Smith, Mr Thomas and Mr Walters.

The clamor for more taxes Mr Walters declared is forced largely by the clamor for relief which everyone knows now is a political football.

He said the intent of the [illegible] to substitute an income tax for the sales tax narrowing the tax base to an unfair extent. He [illegible] the 100 per cent [illegible] property tax is discriminating against business and industry.

Mr Thomas then described a bill

The insurgent force [illegible] having retreated more than [illegible] miles after an unsuccessful siege of Pozoblanco a mineral land stronghold of the Madrid-Valencia government was said to have been caught more than 20 miles northwest of Cordoba City its principal base of supplies.

Government capture of the town of Villaharta yesterday placed Madrid's jubilant [illegible] in a position to dominate the only main road connecting Cordoba with the mines of Gen Gonzalo Queipo de Llano's men.

Occupation of the road would isolate and subject them to continued thrusts of government aircraft, tanks, infantry and planes.

Already one of the four government arms was nibbling at the extreme northwest portion of the insurgents' Peñarroya [illegible] coal field about 17 miles [illegible] Villaharta.

Last night the attacking militiamen were within sight of Peñarroya.

Reports from Bilbao in the north said government Basques fought their way to the top of a 4 500 foot mountain peak in what their commanders asserted was a successful attempt to halt the insurgent drive from the south.

Use of Consumer Rather Than Durable Goods Aim of Switch In New Deal Policy

BUSINESS BOOM FEARED

Mounting Steel and Copper Believed Creating Unhealthy Economic Situation

By The Associated Press

WASHINGTON April 3—The administration proposed today the use of public works money in controlling prices as its latest answer to possible dangers in business recovery.

Fiscal experts explained the government might cut the hazard of too rapid upswing of prices in the durable goods industries by reducing its purchases of such goods as steel and copper.

Instead the money would be spent on projects intended to increase the demand for consumer goods.

President Roosevelt's [illegible] of this policy [illegible] effort to [illegible] potential perils of a business boom.

SITDOWNERS CONFER WITH FORD OFFICIALS

Meet Behind Barred Gates at Kansas City in Auto Magnate's First Strike.

By The Associated Press

KANSAS CITY, April 3—A committee from the strikers [illegible] by after noon today with company officials behind the barricaded gates of the Kansas City Ford assembly plant, scene of the first [illegible] strike ever in a Henry Ford [illegible].

The deep secrecy of the [illegible] surrounded the meeting and kept [illegible] the nature, presumably an effort at settlement, and what, if any progress was being made.

[illegible] pickets patrol the grounds of the plant whose [illegible] gates were welded shut by the strikers after the [illegible] began late yesterday.

An [illegible] executive committee was formed by the auto union headed by its [illegible] for [illegible] general [illegible] which came [illegible] to a Ford plant only a short time ago.

The [illegible], first to strike any of the Ford Motor Co. plants in the nation, was called in protest against the [illegible] laying off of new union members who had seven years' experience while other recently employed workmen were retained.

Homer A. Kelly, who identified himself as a committeeman for a newly organized Ford plant chapter of the United Automobile Workers of America, said:

"If the company will put the old men back to work and lay the new men off, we'll call off the strike."

Ford, oldest of the "big three"—the others are the auto strike-affected General Motors and Chrysler—always has insisted on the open shop and opposed unionization of workers.

"We do not propose to turn industry over to labor unions," he once said.

Ford Layoff Held Necessary

By The Associated Press

DETROIT, April 3—A high official of the Ford Motor Co. asserted today that a strike in Kansas City "if we are correctly advised, will not last long if the men realize the necessity for the temporary lay-off" that precipitated the strike.

"When the sitdown strikes began in the automobile industry," this official said, "Mr. Ford did not step up production and ordered it held at the existing level.

"It was discovered a few days ago that the Kansas City plant was running 20 cars a day ahead of schedule and it was ordered reduced.

"That necessitated laying off 200 to 300 men temporarily, and apparently the men laid off thought they were being picked on."

COURT BILL TO FACE FIRST TEST SHORTLY

Supporters Hint Attempt Will Be Made To Bring Hearings to an End.

By The Associated Press

WASHINGTON, April 3 — An imminent showdown on curtailing the Roosevelt court bill hearings may bring the first test of strength in the closely divided senate judiciary committee.

Supporters of the measure, becoming restive after four weeks of testimony, hinted today at an attempt to end the hearings at an early date.

Sen. McGill, Democrat of Kansas, one of the members still uncommitted, also said he believed the testimony should be brought to a quick close.

Chairman Ashurst, Democrat of Arizona, still was pursuing his policy of "delay, hesitation and postponement," arguing that the longer the hearings lasted the better the bill's chances.

He had agreed to let opponents continue to run the hearings throughout next week and the following Monday.

Dean Frank H. Sommers of New York university law school will carry on the opposition cause Monday, followed by Oswald Garrison Villard, editor emeritus of the magazine Nation. The hearings were in recess today.

"I never had anything that bothered me so much, but I've decided to just let them alone," the mother of the child bride said. Mildred was elated.

"It means I won't have to go back to school now," she said. Mildred had been a seventh grade pupil.

Veteran Harness Maker Passes Away At Mt. Victory

Above is a picture of T. J. Boyd, taken in 1933 in his harness shop at Mt. Victory on his eighty-second birthday anniversary, three years before ill health forced him to retire.

* * *

T. J. Boyd, Father of Marion Man Dies; Spent 71 Years at Trade He Learned in 1865.

Thomas Jefferson Boyd, 86-year-old retired Mt. Victory harness maker and the town's oldest resident in number of years of residence, died today at 12:55 a. m. at his home.

For the last three weeks Mr. Boyd had been bedfast from the infirmities of age which caused his health to fail and forced his retirement last August.

Mr. Boyd's years in the harness making business, 71 in all, were believed to be a record in the state. More than 60 of the years he plied his trade were spent in business for himself. He and a partner bought the shop from his employer, the late J. P. Long, from whom he had learned the craft of leather work.

Eighty-one years of Mr. Boyd's life were lived in Mt. Victory. He went there as a child of 5 with his parents, the late James W. and Elizabeth Witcraft Boyd, from Pickrelltown in Logan county where he was born on Feb. 21, 1851.

Learned Trade at 14

In 1865, at the age of 14, he began to learn the leather trade and except for a short period spent in farming north of Mt. Victory, his entire life was spent at his trade. For 18 months he was an apprentice to Mr. Long, at the end of which time he left for a period of a few months, earned $100 and returned to purchase the shop.

His first customers after he became the shop owner were Civil war soldiers, returning to their fields and in need of harness to outfit their teams for farming. He lived to see their sons and grandsons visit his shop for harness.

Far from viewing the automobile as a foe to his business Mr. Boyd was one of the first Mt. Victory residents to purchase one of the new "gasoline buggies." The advent of the tractor in farming about 1920 was a serious setback to the harness business, but enough continued to come into the shop to justify its maintenance, and on his eighty-second birthday in 1933 Mr. Boyd said that the return of horses to popularity in farm work presaged a trebling of his business over that of late years.

Mr. Boyd at one time sold entire "outfits" of horse, buggy, harness, robe and whip for from $200 to $350, and an ordinary year's business saw the sale of 50 buggies, 50 sets of road harness and 50 sets of work harness.

On Aug. 6, 1936, Mr. Boyd resigned himself to the advancing infirmities of age and sold his shop to Floyd White, Mt. Victory shoe repairman and harness maker.

Outside his home and his shop Mr. Boyd's chief interest was the Mt. Victory M. E. church. When the church was built in 1903 Mr. Boyd, who was president of the official board then and for many years afterward, literally closed his shop to superintend its construction, toward which he had given $1,000. The church was dedicated on his fifty-third birthday anniversary.

Gave Much to Church

Mr. Boyd gave many times over the sum of $1,000 to various religious causes. He was an ardent temperance believer, and he was an exponent of moderate living, attributing his longevity to the fact that he neither smoked or chewed tobacco, or drank, and that he ate moderately three times a day and slept at least eight hours a night.

His father was a native of Maryland and his mother was born in Logan county. He was married at LaRue on Sept. 6, 1877, to Miss Deborah Marmon.

Surviving with the widow are two children, W. C. Boyd of 122 West Columbia street and Mrs. Lela B. Butler of Mt. Victory, six grandchildren, Joan, Philip and Thomas Boyd of Marion, Gordon and Bruce Butler of Mt. Victory and Mrs. Kathryn Cushman of Newark, and two great-grandchildren, Danny Butler of Mt. Victory and James Cushman of Newark. Mr. Boyd was the last of a family of five children.

He was a charter member of the I. O. O. F. lodge in Mt. Victory.

The funeral will be conducted Monday at 2:30 p. m. at the Mt. Victory M. E. church by Rev. C. W. Black, pastor. Burial will be made in the Hale cemetery near Mt. Victory.

Friends may view the body at the W. C. Boyd funeral home on West Columbia street until Monday morning, and at the church from 10 a. m. Monday until the funeral hour.

CONGRESS TO VOTE ON SITDOWN TACTICS

Senate To Pass on Issue in Direct Form While House Acts on Inquiry Demand.

By The Associated Press

WASHINGTON, April 3—Administration leaders acquiesced today to demands that both houses of congress vote next week on the bitterly argued sitdown strike issue.

The senate faced the question in a direct form: approval or rejection of a blunt condemnation of sitdown tactics, offered by Sen. Byrnes, Democrat of South Carolina, as an amendment to the Guffey-Vinson coal control bill.

The house expected to vote Thursday or Friday on a demand for an investigation of sitdowns.

Democratic chieftains predicted scant opposition to the house measure. It was approved yesterday by the rules committee after a conference between Chairman O'Connor, Democrat of New York, and the President.

Efforts of both Democratic and Republican spokesmen to sidetrack the prickly issue in the senate finally collapsed after five hours of acrimonious debate.

Democratic Leader Robinson said he believed a satisfactory arrangement on the Byrnes amendment could be reached early Monday and that the Guffey bill then would pass without delay.

He had led a stubborn battle to refer the amendment to a committee or to consider it apart from the coal bill, surrendering only after Sen. Bailey, Democrat of North Carolina, had objected to every substitute proposal.

"I want to vote on this issue right now," declared the lean, bespectacled Carolinian. "The senate can't afford to delay or compromise on a fundamental question of law and order."

Sen. Norris, Independent of Nebraska, pleaded that "a slap at sitdowns in other industries" should not be written into the coal bill, because miners, he said, have not countenanced such tactics.

Byrnes replied he was unwilling to submit his measure separately lest it be buried in committee.

BATTLE FELT NEAR OVER MIDAMERICA

By The Associated Press

CLEVELAND, April 3—Financial circles speculated today on whether a great legal battle was impending for control of the late Van Sweringen brothers' $3,000,000,000 rail and allied empire now in the hands of George A. Ball, Muncie, Ind., millionaire glass manufacturer.

The speculation arose with announcement by J. Paul Thompson, receiver for the partnership estate of the late O. P. and M. J. Van Sweringen, that he had served formal demand on Ball and George A. Tomlinson that they "protect his rights" to purchase controlling interest in MidAmerica corp. through exercise of a 1935 purchase option given the brothers when MidAmerica was organized late in 1935.

The proposed reduction affects the company's customers in Cuyahoga, Lake, Geauga, Ashtabula and Lorain counties. The announcement said all of the 28,000 customers represented who use more than 51 kilowatt hours of electricity a month will benefit.

CHRYSLER RETURNS TO STRIKE PARLEY

Lewis Also Bound for Lansing Where Agreement Is Expected Shortly.

By The Associated Press

DETROIT, April 3—Walter P. Chrysler, cheered by a double line of non-union employes, returned to Michigan's Capitol at Lansing today to resume negotiations with the United Automobile Workers in the nation's largest strike, affecting more than 60,000 workers.

An estimated 150 non-union workers from Chrysler automobile factories lined a sidewalk leading to the state Capitol building as the manufacturer and his associates appeared. He smiled broadly as he hurried into the Capitol.

John L. Lewis, Committee for Industrial Organization chairman, en route to Lansing from New York, was expected to be present for an afternoon session at 3 p. m., along with Homer Martin, president of the U. A. W. A.

Gov. Frank Murphy reiterated hopes for a prompt settlement of the Chrysler strikes by which the union has sought to enforce demands for sole bargaining rights.

Sitdown strikers evacuated the Chevrolet Motor assembly plant at Flint, last night after General Motors officials agreed to confer with union leaders on strikers' grievances. Thirty thousand General Motors workers, including those in the Fisher Body plant and the Yellow Truck plant at Pontiac, were scheduled to return to work Sunday and Monday.

No progress was made toward settlement of the Hudson Motor Car Co. strike involving 10,000 workers but prospects for resumption of operations by the Reo Motor Car Co.'s truck factory in Lansing brightened.

Another automotive firm, Graham-Paige Corp., announced last night it had signed an agreement with the U. A. W. A. after several weeks of "friendly negotiations."

Homer Martin, president of the United Automobile Workers of America, who went to Flint to pacify striking Chevrolet employes, said today that strike sentiment was subsiding among union members.

"Our members are beginning to realize that this kind of procedure is not only harmful to the corporation but also is detrimental to their own organization," he said.

Commenting on reports that he planned a "purge" of communists and radicals within the U. A. W. A., Martin declared "there are only a few communists within our organization" and that "the labor situation always has been in the hands of the union itself."

BAR LEADER WARNS AGAINST COURT BILL

By The Associated Press

CORAL GABLES, Fla., April 3—President Frederick H. Stinchfield of the American Bar association predicted today an all-powerful central government should President Roosevelt's proposal to increase membership of the supreme court be enacted.

Speaking to the Florida bar association on the final day of its annual convention, Stinchfield said:

"The necessary consequences, of course, will be an all-powerful central government with the rights of the states entirely subordinated to congress and the executive, or to one of them, depending upon the era."

GROUP TAKES STAND AGAINST NEW TAXES

(Continued from Page One)

introduced only yesterday to tax all professional and personal services—doctors, lawyers, barbers, hired men.

"I wouldn't vote for a dime of new taxes if I were in the house, and I didn't last fall," he said. "You simply don't know where your money is going. The crowd down there now and when I was there thought of nothing but creating new commissions and boards to pack the state payroll.

"I do not speak as a partisan. If the present funds are reallocated, the state will have a nice balance at the end of this year. As it is the present budget is just a blank check. It is not broken down into so much for this and that, but a lump sum is given to each department. The only man in the world who can check wastefulness is the state finance director."

Mayor Urges Reduction

Mayor Smith, the next to speak, urged the committee to go further than to recommend no new taxes, and also to recommend a reduction of the present burden. To show what the city had done, he cited figures showing he operated the city in 1936 within its budget and had a surplus.

Permanent savings were effected by his administration which in the next 15 years will save the city $571,292.56 of which $526,595.50 comprises firemen and policemen pensions recently abolished and now involved in court suits. In addition he pointed to other possible savings in administrative costs which would bring the total 15-year saving to $334,292.56.

A sitdown strike of taxpayers was recommended by one of the group as one way out. Referring to disastrous inflation in Germany and France, Mr. Watters said "It can happen here! It already has happened. The time may come when it will take a wheelbarrow full of dollar bills to buy a loaf of bread, as it did in Europe."

The relief and WPA situations came in for their share of criticism. The general opinion was that it should be turned back to the counties and operated on a community chest basis.

Short Change

"Why should the county pay the state taxes for relief then be forced to beg to get the same money back," Mr. Thomas asked. "It's our money and we are getting short changed."

Typical criticism of WPA work in the county came when one of the group referred to the quarry project north of Marion as an example of the "stone age." He said about 100 men there labor with hand and shovel to do work which in the modern world is done quickly and effectively with blasting.

Confidence was expressed that if all counties in the state act as decisively as did Marion that no tax bill will get through the house this session.

The Inter-Organization Conference, with a committee in every county, was formed several years ago to oppose waste in government and unnecessary taxes. It is closely associated with Chambers of Commerce throughout the state.

HAUPTMANN DIED YEAR AGO TONIGHT

No Official Challenge of Sentence's Justice Has Appeared Since.

By The Associated Press

TRENTON, N. J., April 3 — A doctor stepped back from Bruno Richard Hauptmann a year ago tonight and said "This man is dead." The ensuing year has produced nothing official to challenge the justice of the sentence that was carried out.

In the records of Hunterdon county, scene of the Lindbergh kidnaping and Hauptmann's subsequent trial, the case is marked "closed." The last echo of the Hauptmann trial was stilled only a week ago when a perjury indictment against a defense witness was dismissed.

In state police headquarters at Trenton, the voluminous Lindbergh file is occasionally increased by letters giving "tips" or "new evidence." All are checked out as routine police work, but none of them has stood up.

The $25,000 reward is still unpaid, but one house of the legislature has already voted to appropriate the money and [illegible] the long delayed payment may come soon.

Gov. Harold G. Hoffman, whose entrance into the case created such a furor when courts were weighing Hauptmann's appeal, still holds to his belief that the execution did not solve the case.

Mrs. Anna Hauptmann still continues her search for facts which she hopes will exonerate her husband and there are some private individuals who pursue the so far futile quest.

3 KILLED BY TRAIN NEAR HAMILTON, O.

By The Associated Press

HAMILTON, O., April 3—Three youths were killed last night when a 71-car B. & O. freight train struck their automobile at a crossing at the western edge of the city and pushed the wreckage more than a half mile before coming to a halt.

The bodies of William J. Chapman, 18, and George Wolsefer, 17, were in the car when a switch engine wrested it free from the first of two locomotives hauling the train.

Ray Crawford, 15, who was thrown clear, was able to mumble his name to police when picked up 100 yards from the accident scene, but died within a few minutes of admittance to a hospital.

HEIRESS FLEES HER MISSING HUSBAND

Leaves Millionaire Mate in Hollywood, Goes to 'Frisco.

By The Associated Press

SAN FRANCISCO, April 3—A beautiful runaway bride with neither money nor luggage, Mrs. Nan Pierson Brooks Mary Brill, 21, New York heiress, made a wild, 400-mile flight from Hollywood to San Francisco today.

She ran away from her husband of five days, William H. Brill Jr., 25, millionaire sportsman, who had been hiding from her.

Yesterday there had been a stormy scene with her husband and mother-in-law. She was informed of plans for annulment of the marriage.

"They will have to catch me first," she said, explaining intention of avoiding service of the papers.

Then the heiress jumped into the biggest and fastest of his four cars and roared away.

An Associated Press reporter and photographer were in the automobile with her. Between them, they were able to pool 50 cents in cash. A gasoline credit card took care of the fuel.

"We can eat once, and that's all," Nan said.

BRIEF IS FILED IN THOMPSON ACTION

(Continued from Page One)

Thompson actually gave in service to the city 35 years of service as measured by private industrial standards; (4) that the actual average wage paid by industry for the shorter periods of service each month was more than paid by the city to the police department; (5) that in 1926 some members of the police department were attaining an age where it was apparent that age would soon impair the efficiency of the service; (6) that younger men were avoiding the service due to prevailing conditions above outlined and the question of maintaining a police department having the desired standard of efficiency challenged consideration; (7) that all of the new and young members of the police department have become members since the police relief fund was established and maintained and (8) that none of the old members would have retired had it not been for the establishment of the fund.

Stresses Point

Mr. Moloney devotes several pages of his 11-page brief to his contention that city council's authority in setting up pensions was limited solely to the question of declaring the necessity for the existence of a pension fund in Marion.

He cites the state pension law and the council's ordinance declaring the necessity for the existence of a police pension fund in Marion and states, in part, "It is clear... that the action of a municipal corporation in adopting an ordinance declaring the necessity for the establishing and maintaining of a police relief fund, by such act makes sections 4616 to 4631 of the general code thereafter effective within that municipality and from and after the passage of such ordinance the police relief fund is not a creature of the ordinance but is a creature of statute and has its existence by virtue and under authority of statutory law.... To suggest a right or power in the city to repeal is to suggest the power in the city to destroy that which exists by virtue and under authority of statutory law of Ohio.

"An important consideration in this connection is the obviously purposeful intention of the legislature not to vest in the municipality power to create a relief pension fund. It is not possible by any judicial construction, to infer that the legislature intended to vest in any municipal corporation power to create a police relief fund. Such police relief fund is created by statute and the only power vested in the municipality is the power to pass upon the necessity for its existence in that municipality....

"It might be suggested that inasmuch as section 4616 of the general code does provide that a police relief fund is created by virtue of statutory law upon declaring necessity that the municipality which declared the necessity may thereafter by subsequent ordinance declare that such necessity no longer exists. However, we do not have that question in this case. All that was done here was a left handed attempt to repeal the ordinance of necessity. Obviously, this cannot be done. You cannot nullify a police relief fund that was created and maintained for a 10-year period under statutory laws by an attempted repeal...."

Case Illustrated

Mr. Moloney contends that "wisdom" of the statute which left the city councils on the authority to determine the necessity for police pensions in their community and the obvious meaning of such legislation "is best illustrated by this case." "To permit the municipal corporation wherein the statutes had created a police relief fund to interfere with such police relief fund that would impair its effectiveness at the whim or caprice of changing municipal administrations, might work a fraud upon a number of innocent persons that would be reprehensible to say the least," he asserts.

"Take the case of Jim Thompson ...he relied on the effectiveness of the provisions which the law has made for him and gave up his position and civil service status only because of such provision. This applies in like manner to all the men who have retired. On the other hand, take the young fellows who have gone on the force after the creation of the police relief fund and went on solely because of its existence and have given years of service to the city at a compensation less than they could receive in other lines of endeavor. Can it be said that a municipality can accept such services and then blatantly smile at these fellows? Also, take the thousands of dollars of reward money that these men were compelled to turn into this fund and which would have been theirs but for the existence of the police relief fund.

"The legislature never intended that it should be possible that any municipality should have such power and very carefully did it reserve to the state the creation and thereafter the maintenance of police relief funds under statutory provisions.

"The question may arise as to how you get rid of a police pension fund once it is created by statute. The answer is, in the same manner that you get rid of any other creature of statutes, by having the statute amended or changed, if such amendment or change is proper."

Although contending that the question whether a pension is a gratuity is not involved in the Thompson case, Mr. Moloney asserts that "to refer to a pension where the payment is made to those who have performed and are performing acts of service of a hazardous nature as a gratuity indicates a misunderstanding of the English language." He cites dictionary and court definitions of the word pension, and says investigation will show that a pension is a delayed payment for services rendered.

He concludes his brief with paragraphs that follow: "Under a proper construction of the law the court will hold that the city of Marion was without power to nullify the police relief fund, as such fund is not the creature of the city of Marion, but is the creature of statutory provisions of the state of Ohio. We feel certain that the court will reach this conclusion upon a complete examination of this case, that this conclusion and construction will finally be declared to be the correct one.

"We ask that the court also keep in mind this proposition, that [illegible] the only power vested in a municipality is to declare necessity, the only effective way to terminate the police relief fund [illegible] the power, which it has not, to declare by proper legislation that the necessity has ceased to exist and this can not be effected by an attempted repeal. So far as necessity is concerned, there is nothing on the records of council to indicate any determination that the necessity did not exist [illegible] when the pension fund was created, nor is there anything to indicate that that necessity does not still persist."

OHIO LANDHOLDERS FACE TITLE DANGERS

(Continued from Page One)

equal to the face value of the property. Though the land would change hands many times, and come to be considered the property of the person occupying it, the state remained the owner.

The occupants of some of the property became negligent in the payment of the state's rent. Sen. Morris estimated approximately $25,000 is owed to the state in delinquent rents, in sums ranging from a dollar to $1,000.

Under the Morris bill, Sen. Metcalf contends, the state auditor could advertise a piece of the land at one time, if the occupant was delinquent, and sell it at auction and keep all the proceeds, regardless of how much the occupant might have invested in buildings and other improvements.

"Of course I do not believe the present state auditor would take unfair advantage of anyone by this method, but I think it is unwise to give such power to a state official," Metcalf said.

The Morris bill was one of 11 measures passed by the senate in one of the busiest weeks of the current session. The house passed 24 bills.

Measures enacted and sent to the governor for his signature included:

To extend for two years the mortgage moratorium act; to provide permanent tenure for the adjutant general, assistant adjutant general and assistant quartermaster general; to establish a retirement system for public school employes other than teachers; to appropriate $779,000 for the care of insane persons in private hospitals this year and require the state and county to share equally a $2.50 per day cost; and to change the method of filling vacancies on boards of county commissioners, a measure designed to keep the Democrats in power in many counties.

NTIMENT FOR FLETCHER DUCATION BILL GROWS

on Official Testifes in Favor of Measure by Marion Congressman

[illegible] of Marion in a communication received from his Washington D C office.

The bill was heard [illegible] before the senate committee on education and labor and was reported favorably to the senate [illegible] and now is on the senate calendar.

Mr Fletcher [illegible] in connection [illegible] terms in some states [illegible] of the bill [illegible] at least one state last year [illegible] elementary schools averaged a term of no more than five months and three weeks.

The federal aid bill known as the Harrison-Black-Fletcher bill is sponsored in the senate by Pat Harrison of Mississippi, chairman of the senate finance committee, co-authored by Hugo L. Black of Alabama, chairman of the senate committee on education and labor, and introduced in the house by Mr Fletcher.

"It would provide enough financial assistance to guarantee a minimum eight month school term in every state," Mr Fletcher said.

Education specialists, economists and sociologists have been among those giving testimony at the hearing this week.

The bill provides for appropriation of an initial sum of $100,000,000 in aid to public schools to be distributed among the states on the basis of the number of children they have to educate. It provides for an additional sum of $50,000,000 a year until an aggregate total of $300,000,000 annually is expended by the federal government.

Sponsors of the bill have emphasized the inequality of educational opportunity throughout the country, the unequal ability of the states to support schools and the increasing mobility of the population of the nation.

Variance in Terms

"The average school term ranges from a top of nine and one-half months to less than six months and there are more than a million children who are enrolled in sessions of less than [illegible] months a year," Mr Fletcher said.

"There are 2[illegible]0,000 children in the nation for whom no educational facilities whatever are being provided," he continued, adding that another 2[illegible]0,000 are attending school in abandoned houses, old churches and temporary buildings that have been condemned. "One state pays $13[illegible].59 annually per child for schooling while the poorest state pays only $24.50," he said. The statewide average of teachers' salaries ranges from $2,36[illegible] per year in one state to $46[illegible] in another, with 12 falling below $[illegible]76 a year average.

Educational expenditures vary directly with the wealth of the states and the extent of illiteracy also varies with the educational opportunities, Mr Fletcher said. Mobility of the present population and variations in birth rates of states are other factors contributing to the need for federal equalization of educational opportunity, it was pointed out.

As the disease progresses the youngster loses weight and becomes markedly undernourished and weak. The victims of this [illegible] are backward in walking and talking, falling far behind normal development. They are extremely susceptible to the infectious and common diseases of childhood.

The skin has a peculiar pallor. The body is thin and emaciated but the abdomen is very prominent. The child appears to be desperately sick and makes a pathetic sight.

As a result of our advanced knowledge of dietetic [illegible] methods of promoting nutrition it is now possible to do something for these young children. Under skilled medical care and diet management they will improve in health.

Only a limited amount of fat and cellulose is permitted in the diet. Skimmed protein milk is used. Later other foods such as cottage cheese, eggs, scraped beef, boiled liver, gelatin, mashed vegetables and fruits are added to the diet.

Recently beneficial results have been obtained in celiac disease by the use of a banana diet. Since bananas contain little fat and cellulose and have a great deal of nutritive value, they help to start growth and weight. This food is even given to the young infant when it is strained and then mixed with milk.

Boat Heads for Port After Chief Gets Important Message From Noel

TO ME, waiting in the cabin of the motor yacht, it seemed an eternity before my father came back after his summons to receive a message from the wireless.

That the strain shared my suspense I was sure, but Mary was the only one who gave voice to her feelings. Clutching my arm, she said excitedly.

"That must be a message from Noel. Don't you think so, Auntie Madge?"

I answered her truthfully.

"I'm reasonably sure of it, dear. You heard my father say he was getting frequent messages from Noel. But he may have other [illegible]"

"I'll bet the world he was!" Lillian said, but so softly that only a certain lift in her tone told me she was as excited as Mary and I were. "But cut it," she added peremptorily. "Here he comes back again."

Has Location

My father came through the door and stepped to one side to admit the captain of the vessel, who closed the door firmly after him.

"It's the name you wanted, sir?" he asked, evidently continuing a colloquy begun outside the door.

"Yes," my father answered laconically, then broke into crisp directions.

"Take this down, please. It's the location for which I've been waiting."

He gave degrees, minutes and seconds of latitude and longitude. With mounting excitement, I realized that he must be indicating the spot at which the "Virginia" [illegible] with Mary's young husband on board, was riding at anchor, waiting for—what?

With a terrified chill I realized that the next move [illegible] [illegible] and that [illegible] might involve danger for Mary and me. My father [illegible] there were in the forefront of his mind as this would be [illegible] to hope that [illegible] come through unscathed.

"I'll just read it back [illegible]" the captain said, and [illegible] the figure, I saw my father's [illegible]

"[illegible]" Lillian asked [illegible] I had [illegible] the opportunity given by the [illegible]

"Do we have our stateroom, or must we stay in the [illegible] cabin?"

My father permitted himself a grim smile.

"I don't know what good the box seats will do you. It's pitch dark, you know."

"It usually is in the movies," Lillian murmured, beneath her breath, then added aloud:

"If for the [illegible] that [illegible] I'd like to get as near as possible to the stage."

"You'll be on it before—you and Margaret and young Mary—before the play is over," he retorted grimly. "But I have no objection to [illegible] [illegible] if you promise to stay exactly where I put you, no matter what reason you may think you have for moving, and if you keep absolutely quiet."

"Oysters will be garrulous gossips compared to us," Lillian assured him, and my father smiled again.

"You shall all come on deck as soon as we drop anchor," he said. "There's no use your going up now. [illegible]

SALLY RAND A STAR IN TWO FIRMAMENTS

Had $2,000 a Week Contract in Movies in Days of Silent Pictures.

Sally Rand, who will bring her own revue to the Palace stage next Saturday, is no newcomer to the realm of theatrics.

She stepped out from stardom and a $2,000 weekly salary in silent pictures under the direction of Cecil B. DeMille. Though young for a picture star Miss Rand was selected as a Wampas Baby Star in 1927. After several years on the Hollywood lots she left for the stage and a vaudeville tour.

As "Sally Rand of the Movies" she was headlined in principal theaters throughout the United States and Canada. Followed a series of night club engagements in major cities after which she went on the legitimate stage.

In Chicago she accepted a role in "The World Between" in which DeWolf Hopper also appeared. When the play [illegible] to the summer of 1933 Miss Rand decided to stay in Chicago and develop an act to entertain patrons at the World's Fair.

She conceived the fan dance and persuaded fair officials to give her an opportunity to present it. Starting with a salary of only $125 a week she presented her new idea at the famous "Streets of Paris" cafe.

At the close of the fair Miss Rand returned to Hollywood to appear with George Raft in the picture "Bolero." Recalled to Chicago in 1934 she presented her "bubble dance" with even greater success. Since that time she has appeared at three world's fairs.

MARION BOOKS GOOD PICTURES

"Piccadilly Jim" Returns To Open Week Sunday and Monday.

Superior entertainment will be found in "Piccadilly Jim," the Robert Montgomery starring picture booked for return showings at the Marion Sunday and Monday.

Frank Morgan, Madge Evans, Eric Blore, Billie Burke and Robert Benchley support the star in a merry tale of smart romance and comedy. P. G. Wodehouse wrote the original story, set in London, New York and aboard a transatlantic luxury liner. The story concerns a brilliant young cartoonist who falls in love with a girl about whose family he knows nothing whatever. When she disappears he launches a quest for her, neglects his work and loses his job. His father, a former actor played by Morgan, also is in love with a woman of a lofty clan. The boy caricatures a family he has met and his fortune is made. The catastrophe comes when he discovers he has lampooned the family of the girl he loves. Johnny Mack Brown is the star of a western, "Bar Z Bad Men," which will be shown on the same bill.

The Tuesday-Wednesday pictures will be "Murder With Pictures" and "Paradise Express," the latter picture featuring Grant Withers and Dorothy Appleby. It's a story of small town life, a comedy drama of struggle and achievement in a western railroad town. Its life—the railroad—is drastically threatened by the cut-throat methods of an aggressive and modern freight trucking line. Withers, as the new boss of the bankrupt railroad, represents American youth's reaction when thrown into a crisis. "Murder With Pictures," a returned picture, with Lew Ayres and Gail Patrick featured, is an action story of the solving of a murder by pictures taken by a news cameraman.

Martha Hunt, John Howard, Eugene Pallette, Jan Duggan and Douglass Scott are featured in "Easy to Take," which will be shown with a Buck Jones picture, "Sandflow," on Thursday, Friday and Saturday. Glenn Tryon who was a juvenile player in silent films, directed "Easy to Take," a second-run picture. It's the story of a radio "uncle" who broadcasts talks for kiddies nightly. He is made the guardian of a 10-year-old boy by an eccentric woman who has been charmed by his voice, and the "uncle" really gets to know children.

"Theodora Goes Wild," Romantic Comedy, on Screen Sunday and Monday.

"Theodora Goes Wild," a riotous romantic comedy starring Irene Dunne, will return to the State screen Sunday and Monday. The same bill will show a Gene Autry western, "The Big Show."

In "Theodora Goes Wild," the lovely Miss Dunne "lets herself go" after the manner of several of her scenes in "Show Boat," drops her usual dignity and gives her flair for comedy a fling. Melvyn Douglas appears opposite her in the leading male role with Thomas Mitchell, Thurston Hall, Rosalind Keith, Spring Byington, Elisabeth Risdon and Margaret McWade rounding out the cast.

Theodora, a small town girl, finds herself the author of best-selling sophisticated novels which are illustrated by Douglas. He learns her identity, gets a job as a gardener in the town and they fall in love. He disappears and instead of grieving Theodora takes matters in her own hands and following the sophisticated approach outlined in her books hastens to the city in pursuit. EVE'S ORCHARD

By MARGARET WIDDEMER

SYNOPSIS: Eve Mannersfield and [illegible] loving Denny Carter are on the verge of marriage when they quarrel and he walks out. Eve is left in her 200 year old Connecticut house with kind old Uncle Henry and serious little Judge Featherstone whose parents have deserted him and gone to Hollywood. Her steady dependable neighbor George Cleveland who loves Eve intensely offers his help. [illegible] Eve is stranded financially she decides to resume her aunt's baking business while Uncle Henry sells vegetables and Judge delivers his [illegible].

CHAPTER THIRTY-THREE
Mitzi's Letter

THE [illegible] passed [illegible] Some [illegible] Eve herself would run down across the lawn and break [illegible] measures [illegible] peas or lettuce into bags for the [illegible] drawn up beside the road.

As for the baking she worked most of the evenings and through the morning till about two in the afternoon. After that [illegible] her but [illegible] Having [illegible] her aunt till she went [illegible] college of course she knew the [illegible] well enough. She had been brought up in the middle of [illegible] she was in the country phrase not afraid of hard work.

The sheets of little crisp yellow cookies the big pans of warm [illegible] brown pocketbook rolls the jars of baked beans she remembered them all from her childhood and young girlhood. It brought Aunt Lina back that capable quick-stepping ghost moving pleasantly about the big sunny kitchen.

The summer people came just about this time. It was not too late. Things always straightened out if you loved people and they loved you and waited. The thing to do was to be sensible and go on ordering supplies and get fun out of being here in the old house with its garden and its people she loved and work she liked and could do well.

And one of these days Denny would telephone—tomorrow perhaps—in a week if his sulks were worse than usual—and things would lift from contentment to happiness.

Suddenly one morning as she worked at her molding board cutting out cookies she realized that a part of her had so dreaded leaving this house and its life that in a way the postponement of her marriage was a relief. Denny had been so firm about its ending any chance of her living here. Marriage at the end of the summer would be better. By then surely she wouldn't want to stay here any longer. That was what made her wait for Denny to make the first move not an maidenly modesty. From day to day she expected him to and so let things slide always with the feeling that it gave her a little longer time here.

Meanwhile Judge flourished. He was outdoors most of the day riding on his bicycle or deeply thrilled attending the vegetable stand. He put on weight. Uncle Henry whistled about his work. George was in and out. Everybody seemed supremely contented at the way things were. They had their Eve all to themselves.

Eve Writes to Denny

It was Judge who said at the end of a fortnight: "Where's Denny? Why don't you call up and ask him out?"

Simple as that—why didn't she? Had he over his temper by now. She decided she would write him. But there descended on her an exceptionally busy week during which there were two public suppers plus hordes of summer people demanding rolls and cake and bread. The rush stopped as suddenly as it had begun but not the hot wave which had accompanied it and Eve was too tired to do anything but manage regular orders and go swimming in George's pool which he had filled the first hot day.

It was just three hard-working crowded weeks after Denny had flounced off that she did write him sitting at her Governor Winthrop desk in the corner of her bedroom late on a scented June night. She meant to give Adriano the letter to take to the post office next noon but he went off early. She had to keep it another day. Uncle Henry came back from a trip of his own after dinner and handed her and Judge each a fat letter post marked Hollywood and addressed in Marylin's wild pretty hand.

Judge took his off somewhere to read alone. Eve lying in the porch hammock in her thin white dress opened her letter lazily. Her own long letter to Denny had been almost like having him close to her. The sense of his presence still drenched her happily. She was mentally commencing one of those delicious foolish conversations with her lover.

And Marylin actually wrote back from Hollywood darling, after only being there a week! I didn't expect anything at all—and a letter to Judge besides!"

She held the letter up and shook it to see if there was a check inside, nearly certain that there wouldn't be but hopeful enough to investigate. Something fell out but it was not a check. It was a smaller size of notepaper, in handwriting instead of Marylin's typing. It looked familiar—yes—Mitzi's mannered small hand. Marylin, Eve thought idly, really shouldn't pass other people's letters around as she did; nevertheless, she began to read it.

"Marylin darling," it began conventionally; then: "This is to tell you that I've given in at last—as you always said I would, you old flatterer! If I was loved with enough passion." Eve stopped to laugh heartleably; and then sobered, as she realized that evidently Di[illegible] [illegible] Texas [illegible] [illegible] Power [illegible] engaged to somebody.

She sat very still [illegible] of a word [illegible] the little [illegible] her palms [illegible] muscles of her [illegible] quite [illegible] for she [illegible] until the light began to fade.

Her brain began to work [illegible] very quickly [illegible] be here when anybody came back before she had read the letter through. She caught it up and ran to her own room. Again she began to [illegible] It wasn't true. It was just another of Mitzi's [illegible] adored.

She finished it [illegible] her own bed. It was no one of Mitzi's usual boastings or [illegible] self-flattering [illegible] It was plain [illegible] sentimental [illegible] They were engaged [illegible] to a few [illegible] were to be married [illegible] They would live on at Southampton [illegible]

Service Club May Sponsor Big Brother Movement

First steps toward the actual organization of a Big Brother movement in Marion will be made next Monday night when Irving A. Wagner, executive secretary of the Big Brother association of Columbus comes here to speak before the Marion Service club.

The likelihood that the Service club which is composed of young business and professional men of the city will sponsor the widely recognized movement here was voiced today by Attorney Ralph L. Carhart, president of the group.

The purpose of the movement he said is to assist delinquent boys. "We plan to establish the program in Marion if it is at all practical in a city of this size."

Delinquent youths are often pointed out to the club by the juvenile courts while other contacts are made through youth organizations in order to reach the boys before they become delinquent. Mr. Carhart said. It is necessary to make a complete study of the child's background home life and school conditions in the effort to help him.

The Big Brother program is carried on with the conviction that boys are not cases but human and that you can't get rid of a human being by shunting a case into a reform school or jail. The course followed in aiding a boy who needs help is to give him comradeship not money [illegible] form machinery or [illegible]

22 Enter Golden Gloves Tourney As Deadline Nears

EXPECT LIST TO HIT 50 BEFORE MIDNIGHT; OPENING TUESDAY

Seven Bucyrus Youths and Four from Galion Among Those Entered.

[illegible]

[illegible]

Expect 50 Fighters

Late entries [illegible] are expected to bolster the group of contestants to nearly half a hundred, Junior Chamber of Commerce officials in charge of the event said today. Donald "Bud" Cram, former Marion man and now physical director at the Mansfield Y. M. C. A. is planning to bring a group of six to eight leather-pushers from that city and Ashland. From Toledo, the Indiana Avenue Y. M. C. A. is expected to send several youths while James Patterson of the Central Y at Toledo is also planning to enter several members of his boxing class.

Fans who attended the ring program last year will vividly remember Patterson's boxing team which came here to sweep up a big share of the top laurels. Ohio Wesleyan athletes have signified a desire to enter, but will likely remain out of the event because the youths will be returning to school from spring vacations Monday. The group of Marion contestants is expected to swell considerably when members of the Y. M. C. A.'s boxing class file late today.

Plans for the opening of the tournament with elimination bouts next Tuesday night at the Shovel gymnasium are virtually complete. The entrants will meet at 4 o'clock Tuesday afternoon at the Y. M. C. A. for weighing-in ceremonies and first round drawings. An advance ticket sale will be conducted starting today at the Markert & Lewis cigar store at 122 East Center street.

Awards Offered

Winners and runners-up in both divisions of the tourney will receive golden glove watch charms, and in addition the open class champions will receive attractive robes. The robes are to be on display at the Jim Dugan store at 122 North Main street over the week-end. Officials for the weighing-in ceremonies and the actual ring competition have already been named and are awaiting the call for action.

Two of the 1936 Golden Gloves champions are registered in this year's tourney in the open division. One is Dan Matthews, Harding High school pupil, who last year won the lightweight title with a final round technical knockout over Woodrow Harper of Marion. Matthews this year is entered in the lightweight division, which at the present time has only one other entry, Clarence Applegate of Bucyrus. Fans will remember Applegate as the youth who displayed stamina and courage in finishing as runner-up to Dan Slawski of Toledo in the welterweight division last year.

James Brinkman of Bucyrus, last year's champ in the middleweight class, is returning for competition in the same weight class in the open division. As yet no other entries have been filed in that division, but Brinkman may find plenty of competition in the host of athletes expected to get under tonight's filing deadline. Bucyrus' Paul Mollenkopf, who last year finished as runner up to Kenneth O'Neill of Toledo in the bantamweight division has re-entered the same weight class this year.

A complete list of the entries filed up until noon today follows:

RUPPERT PLEASED WITH YANKS, CALLS TRIBE STRONG FOE

"The Yankees have never been in better spirit than they are right now. They really look like world champions," he said.

Ruppert praised the condition of the entire squad, but was especially enthusiastic about three young pitchers, Frank Makosky, Steve Sundra and Jack Laroca. He also praised the work of Lefty Gomez, Joe DiMaggio and Lou Gehrig, all of whom held out beyond the start of the training season.

DENVER, Colo., April 3—Shorts, supplanting bloomers for feminine athletes, have changed the attitude of youth toward sex, Alfred O. Anderson, president-elect of the Central Physical Education association, said today.

"You don't see the boys standing around any more staring at girls' legs on athletic fields," he explained.

"Co-physical education — contests or exercise for both boys and girls — promotes clean-mindedness.

"The day of long stockings and billowing bloomers is finished and costumes stressing shorts are here to stay."

A staunch advocate of women's physical education, Anderson asserted in an interview that despite increasing emphasis on athletics, "American girls are not destined to become strong muscled Amazons."

"We have gone far beyond the idea of muscle building," he said.

"We will still have with us the 'streamlined' girl although her shoulders will be square instead of the 'bottle-neck' type.

"Girls who take part in athletics develop poise, confidence and personality," he said. "They learn to understand boys better. Mixed games have an important bearing on youth's attitude toward sex."

DAUGHTER SHOWS MARIONITE HOW TO LAND BIG ONES

Marjorie Martin, 14-year-old daughter of Municipal Judge William R. Martin, gave her father a lesson in "How To Land the Big Ones" when the two were out fishing late Thursday afternoon.

The judge was first to land a catch, a one-pound black bass. Jokingly he told Marjorie to watch him to see "how it's done." Marjorie, however, turned the tables on her father by landing with expert skill a two-pound fish of the same species. She and her father were fishing on the Whetstone, somewhere south of Marion, but the exact location of their fishing site—well, that's a professional secret.

TRIBE SENDS HELF TO BREWERS CLUB

By The Associated Press

NEW ORLEANS, La., April 3—The Cleveland Indians' catching staff was reduced to its normal three members today when the Tribe sent Henry Helf, young catcher obtained from the New Orleans Pelicans, to the Milwaukee club of the American association on option.

Earlier, Bill Zuber, rookie right-handed pitcher, was sent to the Brewers under a similar arrangement. Both New Orleans and Milwaukee are Cleveland affiliates.

C. C. Slapnicka, head of the Tribe's business office, indicated that Al Milnar, former Cleveland sandlot southpaw, also would be sent to Milwaukee.

SELECT STOCKS CLIMB A LITTLE

Advance Fractions to Two Points in Very Quiet Short Session.

By The Associated Press

NEW YORK, April 3—Selling dried up in today's brief stock market session and selective recoveries of fractions to two points or more prevailed in exceptionally quiet dealings. Transfers were around 700,000 shares.

Further improvement in U. S. government securities, evacuation of Chevrolet sitdowners, signing of a wage hour agreement in the soft coal industry, and belief an amicable conclusion of the Chrysler negotiations is imminent helped to bring in mild support.

Many issues were unable, however, to get very far in front and there was an assortment of losers at the close. Oils and specialties, with a few steels, motors and rails, pointed upward. Coppers and rubbers were virtually neglected.

Commodities were mixed. May corn at Chicago jumped to another 12-year top and other grains exhibited strength. Rubber and copper futures backed away. Cotton was inclined to edge forward.

Shares on the upside most of the time included Skelly, Texas Corp., Standard Oil of Indiana, U. S. Steel, Bethlehem, Republic, Chrysler, General Motors, Chesapeake & Ohio, and International Nickel.

Slipping a shade either way were U. S. Rubber, Goodyear, Goodrich, Anaconda, Kennecott, Standard Oil of New Jersey, New York Central, Southern Pacific, General Electric, Montgomery Ward.

While the majority of the carriers displayed little vigor, surveys in this department indicated total traffic for the second quarter will show as wide a gain over last year as the 15 per cent upturn believed to have been registered in the first three months.

With sitdowns in Chevrolet plants ended, and a soft coal labor agreement signed, traders were a bit more cheerful before the opening.

Notice was taken of President Sloan's statement to General Motors stockholders in which he pointed out the wage level of the automotive industry "cannot continue to rise faster than wage levels of other industries generally without forcing car prices to a point where many consumers will be unable to continue buying."

Wool Market

By The Associated Press

BOSTON, April 3—Domestic wools were not as active this week as last, the strengthening tendency in quotations stimulated by the buying movement of the previous two weeks, was inclined to shut off any thought out of future requirements.

Covering for immediate needs was confined largely to domestic wool of the finer grades and to moderate quantities of spot foreign wools of several grades.

Fine Ohio delaine add a little call at 45@46 cents in the grease, and staple combing ½ blood Ohio fleeces were quoted nominally at 45@46 in the grease. Very little spot business was transacted on medium grade Ohio fleeces, but small quantities were sold for future delivery at 47@48 in the grease for combing ⅜ blood and at 46@47 for ¼ blood.

CORN SKYROCKETS TO 12-YEAR PEAKS

Shoots Up to $1.29 as U. S. Exports Its First Hard Winter Wheat.

By The Associated Press

CHICAGO, April 3—Skyrocketing corn prices to 12-year highs took the grain market spotlight today, overshadowing reports of the first export sales of United States hard winter wheat in several years.

May corn shot up 3⅞ cents to $1.29¾, within a fraction of the day's limit. Old May corn was bid up the full four cents. Dwindling supplies available for commercial purposes, resulting from last year's abnormally small crop, continued as the bullish factor in corn.

European importing nations made additional heavy wheat purchases. Sales of domestic new hard winter wheat were reported made to Antwerp and Rotterdam but the amount was not disclosed.

Corn closed 2¼-4 cents above Friday's finish, May 1.29½@29¾, July 1.20½@⅝, and wheat was ¾@1⅛ up, May 1.43¾@⅞, July 1.28½@⅞. Oats gained ⅜@1⅛, rye ⅜@⅝, provisions 2 to 13 cents and soy beans were bid up the 4 cents limit.

NEWS OF WEEK TRIMS STOCKS

Bond Slump, Roosevelt Remark Regarding Durable Goods, Strikes Are Factors.

By The Associated Press

NEW YORK, April 3—In a week heavily laden with potentially far-reaching developments the stock market beat an orderly retreat.

In general, brokers said the market had underlying aid of bright industrial and trade news, but this was apparently insufficient to stem a moderate flow of offerings as the week progressed.

Unsettling factors were cited in Wall Street as follows: U. S. government bonds slumped to new lows for the year, notwithstanding the statement of Secretary Morgenthau ample government resources were in the offing to maintain an "orderly" market. Some improvement took place as the week drew to a close however.

President Roosevelt told a press conference durable goods prices such as steel and copper were too high. The time has come, he said, for the government to discourage federal spending for such products and quicken spending for consumers goods.

Also throwing a blanket of uncertainty over the business and financial scheme were disputes between workers and employers. The largest involving 482,000 soft coal workers was settled in one day but strikes continued to cloud the outlook for motor and tire industries.

Agitating interest over a broad front was the question of prices, both for raw materials and finished goods. Commodities were erratic. Rubber, cotton and copper were under pressure toward the end of the week. Corn shot to a 12-year peak. Wheat was in demand.

Quotations were marked up on such consumers' goods as gasoline, refrigerators, gas ranges, anthracite coal and trucks. And trade circles predicted a near-term increase in shoe prices.

More insistently business and banking observers put the question: Will higher prices generate consumer resistance or will increases, farm buying power and wage increases serve to keep distribution of goods on an even keel?

In sympathy with the drop in government bonds, low yield corporate issues moved downward.
